

MT MAC COURT MANAGEMENT PLAN

- o Tennis courts require some annual maintenance and occasional major maintenance. By gathering some money every year, there will be money for both the annual maintenance requirements and a base from which to pay/finance/leverage funds for occasional major projects.
- o The Mt Mac tennis courts are public; there is no restriction on who can play or fees that provide access at special times.
- o Players using the courts contribute to the Mt Mac court maintenance fund to provide a stable and secure source of money for the care and maintenance of the Mt Mac courts.
- o Mt Mac court maintenance fund is maintained as a separate bank account.
- o Mt Mac court maintenance fund is solely for the purpose of maintaining the Mt Mac tennis courts. Specifically, it is not to be used for Tennis Yukon programming.
- o Board sets and annually reviews the seasonal court maintenance contribution rates.
- o Primary objective is a savings target of \$3000/summer.
- o Any balance in the court maintenance fund beyond \$3000/summer will be spent only court maintenance including, but not limited to, crack filler, surface repair, windscreens, tennis nets, court benches, court trash bins, backboard, locks, paint, signage, clubhouse/change rooms, subsurface repair, squeegees, brooms, court monitoring, and notice boards.
- o Decisions relating to spending Mt Mac court maintenance fund money is the responsibility of the Tennis Yukon Board.
- o Please see Tennis Yukon website for additional document on accessibility.
